FOLDER-GLUER PARTS

FOLD OVERHOOK ASSEMBLY

Made from high quality steel and bronze. Reverse-engineered with material upgrades to maximize performance and prevent wear.

OEM# 0650 0000 OW
OTC-5900-ASSY

COMPATIBLE WITH EXPERT GLUER FLIPPER

Made from 6061 aluminum and then anodized for added protection.

OEM# 0115481300
OTC-5300-EXP

ALPINA BACK FLIPPER

Quality constructions made from 6061 aluminum. Considerably lower cost than the OEM.

OEM# 03220000AH
OTC-5300-ALP

SIGNATURE CLAMP

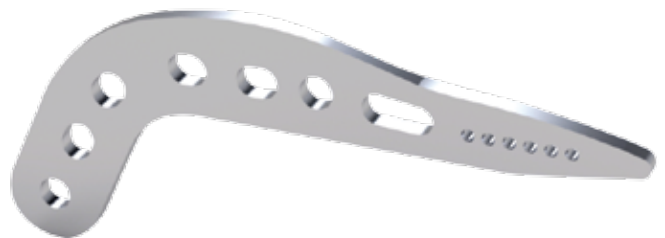

Universal clamp gives the operator flexibility to add guides and support rods anywhere along the machine.

OTC-5013-ASSY

ALPINA FLIPPER

Made from T6 6061 aluminum and modified at the top for added strength.

OEM# 0322216100
OTC-5400-00

FOLDER-GLUER PARTS

DELTRIN ROLLER SETS

These roller sets have been re-engineered to improve the performance and lower the cost. Roller sets are now manufactured using Delrin to reduce friction while maintaining the patent pending "quick change" bearing design that allows operators to change bearings with ease. Reduced pricing makes these the obvious choice for your gluers.

**Compatible with
Alpina, Master
Gluers**

OEM# 1130.0042.00
OTC-5090-14-ASSY

**Compatible with
Fuego, Mistral,
Vision, Expert Gluers**

OEM# 1130.0053.00
OTC-5090-15-ASSY

New!

Made from Delrin and offering our patent pending "quick change" design.

**Compatible with
newer Master Gluers**

OEM# 1113.0053.00
OTC-5090-18-ASSY

**THE
ROLLER
SET THAT
PAYS FOR
ITSELF!**

SIGNATURE ROLLER SET

Delrin body and easy remove bearings. See the difference that makes this a must-have for your new Signature gluers.

OTC-5090-17-ASSY

SIGNATURE CARRIAGE ASSY

OEM# S2G0802
OTC-5155-ASSY

SIGNATURE NICK BREAK ROLLER

Stronger aluminum body at an affordable price. Use these to replace your Nick Break rollers on your newer Signature gluers.

OEM# ALG0801
OTC-5150-L-ASSY (pictured)

Olympic Tool wants to be your supplier!

When we started supplying packaging companies with parts for their folder-gluer, we had just a handful of quality-made parts to offer. Only a few years later, we have nearly 70 commonly-used parts that are helping our customers find an economical alternative source for their folding-gluing needs.

Our products are engineered and manufactured with the customer in mind and many of these items are offered at more than 30% savings.

Whether it's our single body construction on our folding guides (swords) or the ease of removing bearings on our bogies and tie rods, Olympic Tool provides a value that the OEM cannot match.

If you don't see the part you are looking for in this catalog, please let us know. Chances are, we can add it to our inventory and save you money along the way. We work with all materials: brass, steel, aluminum, delrin and other composites. We proudly manufacture all our products in the U.S.A. with a dedicated, highly-skilled workforce, using the latest technologies in the machining industry.
